

The Common Core Curriculum

High School

Ray Cooper & Lauren Forger

44 States + DC Have Adopted the Common Core State Standards

What is the Assessment Plan?
The MCAS Plan?

In 2011 and 2012, the grade 10 MCAS mathematics tests will assess students on the MA 2000/2004 mathematics framework.

HOWEVER...you need to be aware
of upcoming the
paradigm shift.....

Starting in 2015.....the school year
and composition of the high school
high stakes testing is completely up
in the air.

Massachusetts has signed onto
PARCC.

 The only PARCC high school exam planned for 2015 and beyond is in grade 11 and is heavy on Algebra 2 & Statistics (“college readiness”).

HOWEVER in Massachusetts...*The transition plan for the grade 10 MCAS mathematics test is under development and will be released as soon as it is completed.*

Onto a course by course
examination of the Common Core
Curriculum
